SELINUS UNIVERSITY
BUSINESS SCHOOL

PANAMA LONDON BOLOGNA RAGUSA

Welcome

The **Selinus University Business School** international study programs enable managers, professionals and entrepreneurs to certify their skills in international business and management.

We aim to encourage students to global strategical thought beyond their national borders as well as using their skills worldwide.

Nowadays, managers need to be pragmatic, action-oriented and curious. The development of leadership, management and intercultural communication skills are the main characteristics of modern professionals. Your degree will certify this vision.

The Selinus University study programs mirror the challenges of a complex and ever-changing international business environment that managers face every day.

Several social factors have created a momentum towards globalization. As a competence-certified educational institution, we respond by further internationalizing and constantly modernizing our curricula to meet the needs of today's business community.

We hope to have you soon among Selinus University's Business School top graduates.

About us

SBS, the Business School of Selinus University of Science and Literature is dedicated to intercultural education with a global perspective; it is an independent private online higher education institution operating worldwide.

SBS offers flexible, liberal and global curricula. Its programs (Bachelor, Master, Doctorate in Business Administration) are addressed to 30 years old at least adult students having a minimum of 5 years of professional experience. We strongly believe in the Article 26th of the United Nations Universal Declaration of Human Rights; it states that higher education is a human right.

The qualifications issued are international private professional certificates issued by our headquarters. Our study programs are career-oriented and fully compatible with international education systems. Study course access depends on CV former work experience and academic consistency evaluations; that process allow to transform the candidate's professional experience, previous studies, certifications ...into academic credits.

Our study programs distance themselves from single countries educational models and therefore, our campuses are not accredited by the local Ministry of Education. Our study programs are considered as off regulation higher education providers according to the constitutional freedom to organize education. Private certificates and diplomas issued by the SBS may not allow access to government employments, regulated professions or further study in public institutions.

Career prospect

Our study programs allow candidates proving 5 years of recorded professional experience at least, to achieve a prestigious BBA, MBA or DBA in Business Administration. Based on their professional career, they can choose the closest related discipline.

Candidates will have to prove their knowledge in business administration through a rigorous, original and qualified final dissertation; students' preparation will meet international academic standards.

SBS students are able to focused on a wide range of specialist subjects. Thanks to their know-how and experience, they will succeed in today's global economy, showing prompt reply to career opportunities and professional advancement. Selinus Business School degree programs represent an excellent opportunity for managers, entrepreneurs and professionals who wish to see their professional prestige increasing in today's job market.

Our Academic Board' strict assessment and our supervisors' competences guarantee high professionalism, always a discriminating factor in the private field of liberal studies.

An international SBS degree may boost career advancement to senior positions in national and multinational companies and organizations.

Private and liberal studies in the global era

It is clear to everybody how times have changed. Today, it is possible for people to build their own education in order to fulfil their professional needs without necessarily attending a University; however, in the professional field a University degree can be very useful, sometimes determining.

Thousands of entrepreneurs have built their own future using their intuition and creativity. In the same way, managers and professionals got to valuable positions thanks to the experience gained during years of work.

Our highly qualified Faculty members come from all over the world. They have a solid academic background and an extensive professional experience as business leaders, industrialists, entrepreneurs and/or consultants.

Such a pragmatic, knowledge-based learning approach implies proper monitoring of students' experiences; it facilitates adjustment to global marketplace needs thanks to the support of an Academic Council composed of leading figures in several economic branches of the business community.

A valuable alternative higher education degree

Selinus University's Business School distances from a solely “theoretic” approach where business remains an abstract and inapplicable concept. That is because we require our students to have at least 5 years of management experience.

The candidates' CV are pragmatically examined by giving each activity, experience and achieved goal listed a certain number of academic credits. The candidates' acquired experience validated by SBS is therefore equivalent to the necessary training requirements for credits assignment.

Our study programs are considered as higher education according to the free education organization constitutional principle. That means that private certificates issued by the SBS may not allow access to public employment nor study continuation in other public institutions. However, the value of a non-regulated higher education institution degree, as Selinus Business School's, is ascertained by proved candidate's expertise over any kind of accreditation.

Many of our adult students have leading professional experience; many are entrepreneurs, managers and professionals; others have learned management in the field, experiencing winning life and business strategies. They are potential university graduates wishing to certify their skills through a specific degree. SBS graduates are highly appreciated by Multinational Human Resources, NGOs, private companies. The awarded degrees are absolutely useful for all management fields professions.

Our mission

Selinus University Business School is based on the Article 26th of the United Nations Universal Declaration of Human Rights. We strongly believe that higher education is an inalienable human right.

We aim at being recognized as a private, independent, liberal higher education institution for our serious management work, especially in the executive field. We strive to provide entrepreneurs, managers and professionals with the inspiring excellence of a private institution; our added value is a stimulating intercultural environment.

Our professional experience validation programs are in line with international APEL (Accreditation Prior Experiential Learning) standards. We constantly self-evaluate and self-improve our work through internal and external quality validation. Our staff shows innovation, flexibility and a constant sense of improvement.

Selinus University is internationally recognized for its contribution to corporate and managerial professional training. It is addressed to students having already specialized and culturally diverse backgrounds. It supports academic advancement and personal growth. Our mission is achieved through the rigorous evaluation of candidates' professional experience in the executive field.

Why Executive Corporate:

- To offer study programs that recognize the professional experience, skills, leadership, innovation of highly competitive and career-oriented people wishing to certify their managerial skills internationally;
- Offer our adult students validation programs to obtain the three most prestigious academic degrees in Business Administration: BBA, MBA, DBA. Maintaining excellent standards in our international student assessment programs.
- To welcome entrepreneurs, managers, qualified professionals from all backgrounds, races, nationalities and religions who wish to pursue an academic career appealing for the international right to study.
- Using assessment tests to confirm to students their analytical, conceptual, quantitative and interpersonal skills so that they can profitably use them in the job market. At the same time, providing the opportunity to develop specific academic skills according to one's interests and talents.
- Encouraging an intercultural management understanding, a global leadership and business ethics perception among our adult students.
