We certify leaders who stand out in the business world

Our goal is to certify the acquisition of managerial skills and as well as academic achievements for professional use in international work panorama.

Selinus Business School, as an independent distance learning online higher education corporation, offers university flexible, liberal and global studies in order to achieve Bachelor of Business Administration (BBA), Master of Business Administration (MBA) and Doctor of Business Administration (DBA) in all areas of Business and Management.

Bachelor, Master and Doctorate degrees are professional and international certificates and diplomas achieved after candidates' final dissertation. In order to obtain a degree, Selinus goes through an APEL credits validation process of the candidate former academic and professional career.

Our programs are fully compatible with the international education systems and are addressed to Managers, Entrepreneurs and Professionals willing to enhance their professional career. SBS requires a minimum of 5 years of professional experience in the specific management branch the candidate operates in. That will be verified through a strict analysis of the student's CV in order to assess his/her skills and developed experience. The student's final thesis will be also evaluated.

Since each country has its own academic framework, Selinus has decided not to adopt any of them, rather to be equipped with study programs accredited by international organization.

Selinus is a legitimate free higher education institution; given its private nature, all degrees issued by Uniselinus cannot guarantee access to government administration. As a matter of fact, our programs steer in the direction of managers and professionals' employment in business international field rather than to public employment.

According to our *modus operandi* and inflexible evaluation criteria, our graduates are ready for essential business roles and executive-level positions in multinational corporations, NGOs, private companies or to perform unregulated professions. In addition, we provide experienced entrepreneurs with certification of how long they have been operating in their field.

The academic candidates' assessment, as well as the strict criteria in verifying their real skills, attitudes and competences, confer evidence of high professional and disciplinary competence to Selinus University Business School degrees.

MBA BY APEL

What does a MBA program by APEL consist in? (Accreditation Prior Experiential Learning) 40 credits

The main MBA by APEL requirement is to have at least 5 proven years of management professional experience. To get a MBA you are demanded to carry out a thesis (minimum 100 pages) in agreement with your supervisor; that will be evaluated by the Selinus University academic committee.

In case the thesis is not sufficient to prove the candidate's skills, either additional written reports or interviews with a specialized supervisor may be required. It is candidate's right to bring in references from institutions, companies or individuals.

To access the Master of Business Administration (MBA) program you must have a Bachelor degree or equivalent. If the degree requirement is not met, an alternative is to enrol in a Dual Degree program (Bachelor + MBA). In order to be admitted to the program, the candidate needs to have obtained at least 29 credits from his/her CV through the A.P.E.L. assessment. The final thesis will be evaluated 11 credits, for a total of 40 credits. Thesis have to be realised in a time range from 6 to 24 months at the most.

The MBA is the most prestigious degree in management and can also be carried out in a specific field, for example: MBA in Management, Finance, Executive Leadership etc.

Accreditation - Education Quality - Reputation

The accreditation process is non-governmental and discretionary. A distance education university usually appeals to a private, regional or professional association, in order to be accredited. When any university applies, the accrediting institution performs an overall assessment and grants the accreditation only when deemed appropriate, according to its own accreditation criteria. No worldwide accreditation standards are currently available for any distance learning higher education institutions such as Selinus University.

A distance learning degree can be useful for many purposes, but not for all. It can give access to many careers and jobs, whereas others require government-accredited diplomas.

For this reason, before enrolling, we suggest our potential students to verify the correct degree use in their country.

Professional reputation depends on people's skills and competency, that are only virtually represented by the obtained degree. It is therefore necessary to bear in mind that any company or employer relies more on actual knowledge and expertise owned by aspiring employees, rather than on their degree. For most companies, the completion of a distance university program is as valid as attending courses in a formal university campus.
